

Procedure for obtaining permission to land at and depart from Murmansk Airport

1. An airline, an operator acting on the orders of an airline, or a private owner forwards a request to Murmansk Airport for arrival and aircraft services to the following addresses: pds@mmkavia.ru, i.guryanova@mmkavia.ru (to receive permission for a slot).
2. Within two days of receiving a confirmation that the participant is registered for International Arctic Forum 2025, a telegram will be sent from pds@mmkavia.ru, i.guryanova@mmkavia.ru to approve aircraft arrival and departure slots at Murmansk Airport.
3. After receiving the telegram on slot approval, the airline or operator acting under the AIP (Aeronautical Information Publication) will receive permission from the Russian Federation's aviation authorities to execute the flight. FAS permission will only be granted after slots are approved with Murmansk Airport.

Due to the large number of aircraft arriving at Murmansk Airport during the Forum, it is imperative that strictly coordinated slots for arrival at and departure from Murmansk Airport are adhered to. **In the event of a violation, the airport reserves the right not to receive the aircraft and to direct it to a backup airfield to await a possible arrival slot on a first-come, first-served basis. A maximum of 8–10 flights containing Forum participants** can be serviced for arrival and departure per hour. We therefore kindly request that you coordinate your flights well in advance.

During the Forum, the number of spaces for private aircraft will be limited. As long-term parking cannot be provided for all aircraft, you are kindly requested to draw up a flight plan which factors in turnaround and parking of no more than one hour at Murmansk Airport. Permission for long-term parking will be given by the organizers of the Forum in consultation with Murmansk Airport.

After the Forum, departure permission for aircraft containing International Arctic Forum participants will be issued no earlier than four hours following the closing of the Forum, in strict compliance with confirmed slots.
